Patent

A patent is an exclusive right granted for an invention, which is a product or a process that provides a new way of doing something, or offers a new technical solution to a problem. The limited monopoly right granted by the state enables an inventor to prohibit another person from manufacturing, using or selling the patented product or from using the patented process, without permission. The time period of patent is about 20 years.

Industrial Design

An industrial design is the ornamental or aesthetic aspect of an article which must appeal to the eye. The design may consist of three-dimensional features, such as the shape or surface of an article, or of two-dimensional features, such as patterns, lines or color.

Trademark

A trademark is a distinctive sign which identifies certain goods or services as those produced or provided by a specific person or enterprise.

Geographical Indication

Geographical Indication is an indication which identifies goods as agricultural goods, natural goods or manufactured goods as originating, or manufactured in the territory of country, or a region or locality in that territory, where a given quality, reputation or other characteristic of such goods is essentially attributable to its geographical origin.

Layout Design

It includes layout of transistors and other circuit elements, including lead wires connecting such elements and expressed in any manner in a semiconductor integrated circuit (IC).

Trade secret

Some inventions, data, information cannot be protected by any of the available means of IPRs. Such information is held confidential as a trade secret. Trade secret can be an invention, idea, survey method, manufacturing process, experiment results, chemical formula, recipe, financial strategy, client database etc.

5. Education and Awareness: Educating girls and women about menstrual hygienmanagement is crucial for their health and well-being.

Nutrition:

1. **Iron-Rich Foods:** Consuming foods rich in iron such as leafy greens, red meat, beans, and fortified cereals helps prevent anemia caused by blood loss during menstruation.

2. **Calcium and Vitamin D:** Adequate intake of calcium and vitamin D through dairy products, fortified foods, and exposure to sunlight helps maintain bone health, especially important during menstruation.

3. **Hydration:** Drinking plenty of water and fluids helps in maintaining hydration levels and may alleviate symptoms like bloating and fatigue during menstruation.

4. **Balanced Diet:** Eating a balanced diet with a variety of fruits, vegetables, whole grains, and lean proteins provides essential nutrients required for overall health and well-being during menstruation.

5. **Managing Cravings:** While it's common to experience cravings during menstruation, opting for healthier alternatives like fruits, nuts, and dark chocolate can help satisfy cravings without compromising nutrition.

Both menstrual hygiene and proper nutrition are crucial aspects of women's health and should be given due attention for overall well-being during

•Innovative effort (own, of employees and of external collaborators, partners, advisors and consultants) • Persistence • Focused management of the entire process from idea to market.

Conditions necessary to obtaining a commercial return To obtain commercial returns from IP, certain conditions must exist. These include inter alia: • The existence of a customer or the ability to create customers; and • An entity controlling the manufacture and sale of the resulting products.

Legal vehicles for the commercialization of IP There are two chief legal vehicles by which owners may commercialize their intellectual property (apart from in-house exploitation): • To sell or assign the IP; and • To license the IP rights.
